Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 3-7 are objected to because of the following informalities: Each claim shall begin with a capital letter and end with a period. Periods are not allowed anywhere else in the claim with the exception of abbreviations. Correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Katz (US D 168,456) in view of Beatty (US 2003/0182963 A1).

Katz discloses a necklace comprises a food pendant adorned necklace that has a main adornment (pendant in the form of an apple in Fig. 1). Katz fails to disclose that the necklace also comprises a recipe. However, Beatty teaches a necklace (115) having a container (110) that carries a scroll or card (Paragraph 0032). The scroll or card can be used to record different kinds of information such as recipes (Paragraph 0004). Therefore, it would have been obvious to one having ordinary skill in the art at the time of applicant's invention to have a recipe which is printed on a card with is attached to the necklace (through the container 110) as taught by Beatty in combination

with the necklace disclosed by Katz. Doing so, the scroll or card will provide a means to record different kinds of information such as a recipe being claimed.

Katz also discloses that the supporting adornments of the necklace represent the recipe by way of color and/or theme and/or abstract symbolic nature (pendant in the form of an apple in Fig. 1).

Allowable Subject Matter

4. Claims 3-7 would be allowable if rewritten to overcome the objection(s) set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Majeska (US D 156,136, US D 156,138 and US D 156,139) and Katz (US D 175,616) are cited to show state of the art with respect to a food pendant for a necklace.
